OTHER INFORMATION

Military Services: Completed

Consistent and goal-oriented Back-End Developer, eager to fully commit on an entry-level position in a dynamic organization. Active listener, highly disciplined and problem-solving personality, with a sufficient knowledge on Python, Java and SQL programming languages. Adaptable, patient, collaborative spirit, willing to face new challenges. My programming knowledge, coupled with my volition to learn new technical skills, will effectively help me integrate into your company's requirements.
